Steps and actions to acquire JELMYTO® (mitomycin) for pyelocalyceal solution for your patients

Pre-enrollment

The JELMYTO acquisition process requires a declaration by the provider to acquire the product solely through Cardinal Health Specialty Pharmaceutical Distribution. You will need to complete the JELMYTO Distribution Declaration Letter at this stage.

PROVIDER ACTION:

To get started, provide Cardinal Health account details (if available) for account verification OR create an account with Cardinal Health by completing and signing the Distribution Declaration Letter and emailing to Distribution@UroGenSupport.com.

UroGen Support™ is available throughout this process to address any questions you may have.
